News from Mr. Saxon:

- Will be part of the interview process for hiring a new director.
- He did receive an offer for tenure from Dr. Moore so that had nothing to do with this decision.
- Moving forward, things will stay the same. Will be involved - will help.
- Leadership will help lead the band and help the new director. Each selected for a particular reason.
- Larry Adams is the Quarterback Club President for next year!
 - Mr. Adams wants to bring us all together instead of all be separate

Band Leadership:

- Why is a Minecraft leadership realm needed?
 - Will help create bonds (spending time with each other outside of school, memories, talk to people we know)

- Will enhance creativity (explore imagination, team building, thinking outside of the box)
- Will improve team development (learn to compromise with each other, resolve disagreements as a team, learn to take constructive criticism and feedback)
- Votes are that they will get the leadership realm and boosters will pay for it (\$95 per year for each leadership member).

Jake Skellet:

- Thank you to Mr. Saxon
- Letter to board of education for a middle school band director - every year, executive board (and other parents) have always sent letters to BOE asking for a middle school director
- As school and band grows, will be difficult to retain good directors without help at middle school
- Encourages each parent to write a letter to Justin Burns
